3. Charter

3.1 Mission statement

The purpose of CS-CIRT team is to solve security incidents response for IT-security problems within autonomous system AS199803

3.2 Constituency

CS-CIRT team constituency covers the AS199803 autonomous system and solves

security incidents in following domains:

comsource.cz

flowguard.io

3.3 Sponsorship and/or Affiliation

CS-CIRT team is department of Comsource s.r.o.

3.4 Authority

CS-CIRT is department of Comsource s.r.o. and operates with authority delegated by the company. As described in chapter 3.1, team is responsible for solving incidents within autonomous system AS199803.

4.Policies

4.1 Types of Incidents and Level of Support

CS-CSIRT is authorized to address all types of security incidents which occur, or threaten to occur, in our constituency (see 3.2) and require cross-organizational coordination. The level of support given by CS-CSIRT will vary depending on the type and severity of the incident or issue, the type of constituent, the size of the user community affected, and our resources at the time. Special attention will be given to issues related to DDoS incidents.

4.2 Co-operation, Interaction and Disclosure of Information

CS-CSIRT is ready to cooperate with other organizations and teams.

We operate under the restrictions imposed by Czech law. It involves especially Civil code and Data Protection law.

4.3 Communication and Authentication

For normal communication not containing sensitive information we use unencrypted e-mail. For secure communication PGP-Encrypted e-mail will be used.

5. Services

5.1 Incident response

CS-CSIRT will assist IT-security teams in handling the technical and organizational aspects of incidents and will provide assistance or advice with respect to the following aspects of incident management:

5.1.1. Incident triage

- determining whether an incident is authentic
- assessing and prioritizing the incident

5.1.2. Incident coordination

- determine the involved organizations
- contact the involved organizations to investigate the incident and take the appropriate steps
- facilitate contact to other parties which can help resolve the incident
- share incident information with other CSIRT teams

5.1.3. Incident resolution

- provide resolution or reported security incident or issue
- follow up on the progress of the concerned local security teams
- secure the system from the effect of reported incident
- collect information

5.2 Proactive activities

CS-CSIRT do not pursue proactive activities.

6. Incident reporting forms

There are no local forms available.

Incident's information, details are tracked and reported in incident management System.

7. Disclaimers

While every precaution will be taken in the preparation of information, notifications and alerts, CS-CIRT assumes no responsibility for errors or omissions, or for damages resulting from the use of the information contained within.
